ACADEMIC HISTORY

American International University-Bangladesh | Expected 2026

Bachelor of Science in Computer
Science and Engineering

- GPA: 3.86

Comilla Victoria Government College | 2020

Higher Secondary School Certificate

- GPA: 5.00

Comilla Zilla School | 2018

Secondary School Certificate

- GPA: 5.00

AWARDS AND CERTIFICATION

- Dean's List Honors for outstanding academic performance
- IT Essentials (Cisco Networking Academy)
- Best Poster award (Data Science), Thesis Day, (Fall 2025-2026)

SKILLS

Programming Languages:

- C++, C#, JavaScript, TypeScript

Frameworks & Technologies:

- React, NestJS, Node.js, .NET Core MVC

Database:

- MySQL, PostgreSQL

Tools:

- Git, GitHub, MATLAB

PROFESSIONAL SUMMARY

Computer Science student with practical experience in full-stack web development, software engineering, and problem-solving using Node.js, React, C++, .NET, and .NET Core. Possesses a strong foundation in programming, databases, and application development through academic and personal projects. Seeking an internship opportunity to further develop technical skills and contribute to real-world software projects.

PROJECTS

Shomvob: Bringing Revolution in Transportation System

Programming Language: C#

- A unified platform that allows users to rent rides, riders to share their journeys, and vehicle owners to access expert repair services. It includes an integrated payment system and an emergency section with vital contact information for fire services, police, ambulances, and hospitals.

Maze Runner

Programming Language: C++

- A three-level platform game where players advance by running, jumping, and avoiding obstacles. Each level introduces progressively challenging gameplay to maintain engagement and ensure smooth progression.

EvenBoo: An Event Booking System

Programming Language: Nest.js(TypeScript), React(TypeScript)

- A web platform that allows the organizer to host and manage events, while users can browse and join events seamlessly.
